MOBROW — The world's largest land plane, the Maxin Gorky, pilot of Soviet Russia, crashed to earth on Sunday last after a collision with a small stunt plane and all the 45 persons aboard the giant ship, along with Pilot Bligian of the other machine, were killed.

Censorship was Enforced

The disaster occurred over the village of Soud, Moscow suburb, at 12:15 p.m. but for ten hours authorities clamped down a rigid censorship which delayed the tragic news.

The Council of Peoples' Commissars authorized on Sunday the construction of three new planes of the same type as the Maxin Gorky.

William Aberhart, social credit leader, will not stand for election at the forthcoming provincial election, it was disclosed at the nominating convention at Calgary on Monday evening.

League in the Chicago — Prostate Club of the Chicago League of Women Voters, Monday evening.

Twenty-seven persons were killed, out of which 12 will come before the advisory committee and the leader after the vote cast by delegates Monday night have been consigned, and out of the twelve elected as members, probably six candidates to contest Calgary will be finally chosen.

There are six seats in the legislature representing Calgary and it was indicated as probably the social credit party run six candidates.

While the nominations were being made, one delegate asked that Mr. Aberhart would consent to stand, and he was told that it had been agreed that the leader of the party was to be left free to travel through the province and be where he was required.

During the session, the touring bureau operated at branches on the Alberta Motor Association in Edmonton, Calgary and Lethbridge are expected have demands for service.

At these offices where country is one of the by-words, every consideration is given to the requests of motorists. The touring bureau, experts who have made a careful study of routes are able to pick out the most comfortable and convenient ones, so that motorists may travel on ease and return by another, never covering the same ground unless there is a desire to see some sections twice during the trip.

From time to time, the motor office receives letters of commendation for their routing services.

Minings, garages, hotels, all forming the official appointments of the A.M.A., are shown on these maps. For those seeking good hunting or fishing spots, the maps contain valuable information.

The maps are of particular value to visitors, of whom greatly increased numbers are expected to visit the parks and other beauty spots during the coming season. In view of the campaign inaugurated by the Canadian Travel Bureau to attract a greater number of tourists, the highway directional maps will be of extreme assistance.

If C. Willson returned home from Winnipeg Tuesday night.

Carl Moschowski moved his family into the house formerly owned by Jas Baird and vacated recently by W. Leitch.

HOG PRODUCTION PLACES ALBERTA IN FIRST PLACE

EDMONTON — Holding hog production volume steady for the past three years and greatly improving the quality, Alberta has taken first place among the "homin provinces" for the first time.

Ontario formerly held first place but production slumped this year, with 25,000 head below Alberta for the first four months of 1935.

Official federal grading reports show for the first 18 weeks of 1935 that there was graded in Alberta during 1935—233,477 hogs. The same period last year showed 242,995 and in 1933, 232,771 hogs.

CARBON TENNIS CLUB TOURNEY HELD SUNDAY

The Carbon Lawn Tennis Club held the first half of their Club Tourney on May 19th. Men's Singles, Ladies' Singles and Mixed Doubles being played.

Norman Nash won the Men's Singles, R. Ramsey having to default in the final owing to leg cramps. Miss Mabel Ramsey won the Ladies' Singles from Miss Joan Heath. The final of the Men's Doubles and the Ladies' Doubles will be played on May 26th. The following are the results and scores:

- Men's Singles**
P. Poxon defeated S. Campbell 6-1, 6-2. R. Ramsey defeated J.C. Spence 6-2, 6-2. C. Smith defeated G. Ramsey 6-1, 5-6, 6-2. The other competition received byes.
- Quarter Finals**—W. Poxon defeated C. Poxon 6-5, 6-1. R. Ramsey defeated P. Poxon 6-5, 6-0. N. Nash defeated C. Smith 6-2, 6-1. H. MacDonald defeated H. Edwards 1-6, 5-6, 7-5.
- Semi-Finals**—D. Ramsey defeated W. Poxon 6-3, 6-1. N. Nash defeated H. MacDonald 6-2, 6-3.
- Final**—Nash defeated R. Ramsey 5-6, 5-3, 6-0.
- Ladies' Singles**
Miss J. Heath defeated Miss M. Reed 6-4, 6-6, 6-3. The other competitors received byes.
- Semi-Finals**—Miss J. Heath defeated M. McQuinn 5-6, 6-3, 6-1. Miss M. Ramsey defeated Miss A. Reed 6-4, 6-5, 6-0.
- Final**—Miss M. Ramsey defeated Miss J. Heath 6-5, 6-3.
- Mixed Doubles**
J. Spence and Mrs. Poxon defeated S. Campbell and Miss P. Heath 6-2, 6-6, 6-1. N. Nash and Miss A. Reed defeated C. Poxon and Miss A. LeMay 6-4, 6-5, 6-0. Ramsey and Miss J. Heath defeated R. Ramsey and Miss M. McQuinn 6-4, 6-1. Edwards and Miss M. Ramsey defeated W. Poxon and Miss R. Reed 6-4, 6-4.
- Semi-Finals**—N. Nash and Miss A. Reed defeated J. Spence and Mrs. Poxon 6-4, 6-1. Edwards and Miss M. Ramsey defeated G. Ramsey and Miss J. Heath 5-6, 6-5, 6-3.

The Red Bus Lines made two special trips this week. On Wednesday they took a party of Sunday School pupils to the park and on Friday of this week they have been engaged by the T. Eaton Co. softball team to take them to Banff.

A number of local Masons paid a fraternal visit to the Stithmore lodge on May 19th. They were as follows: Wilfred Poxon, Jr.; Wilfred Poxon, Sr.; Clarence Hays; Bruce Ramsey; J. H. Oliphant.

Seeding In Carbon District Is Almost Completed

INTEREST RATE ON FARM LOANS IS FIVE PER CENT

OTTAWA—Rate of interest loans extended by the Farm Loan Board to Canadian farmers on first mortgages will be 5 per cent. Announcement was made today by Hon. R. N. Rhodes, Minister of Finance. The same rate will apply in each province on a maximum loan on a first mortgage of \$5,000.

Board Has Full Control

Provision also had been made for second mortgages and the interest rate would probably be six per cent. It was announced. The board will have \$10,000,000 available for loans.

Under amendments to the Farm Loan Act this season, administration is entirely under control of Farm Loan Board organized by the Dominion government.

VACANCIES IN SENATE TOTAL 10

OTTAWA—Death Saturday of Senator John Lewis in Toronto brings the number of vacancies in the Senate up to 15, the largest number since the upper house was formed after confederation. The Senate will hold its first full session on Tuesday.

Rev. McNichol's Address

(Continued From Last Week)

In face of all this should we not be the most patriotic and liberty loving people on the face of the earth today? If I could only say, "I for one get thee, Oh Jerusalem, let my right hand forget her empire, surely we have greater reason to be loyal to our King and Empire. Patriotism is one word that seems to be greatly misunderstood by many people today. The moment you mention the word, visions of the war drums and the battle flag loom up before them. Patriotism is not a mind, it is not a thing, it is not a feeling, but it is a principle. When the war drums beat and the battle flag is unfurled, singing indeed is the heart that is not stirred to its depths. But in the quiet times, when we are often in greater danger, we are in danger of becoming selfish, we are in danger of loving gold more than country, and personal wealth more than principle. Our patriotism is lost at all times to be grandly maintained, and at the same time it is involved in the pursuit of the ideal, and the fulfillment of common duties. It implies that every individual will carry his full share of the responsibilities and burdens of citizenship. This country will never be what it ought to be until every citizen becomes intensely interested in every vital question of local and national import, and measures up to that full in the settlement of the same. If the inhabitants of that narrow strip of land lying between the Red Sea and the Mediterranean could express his love for his country in such a passionate outburst and impetuous prayer the Canadian citizen, by this his native land, or the love of his nation, could do no more. As this country as it has given no other country to any other people in view of the fact that He has called us to be a servant nation in the affairs of the world, and thus a blessing upon our nation being called more and more into that ordained citizenship, and in view of the fact that God has made us infinitely greater, better, and nobler than any other people, and that we speak to you on our God given call to citizenship.

If we have real faith in God there is no cause for discouragement for man or woman at the present time. The greatest and the best are still ahead. Prepare yourselves to be a worthy part in the days that lie before. The people that best our nation life are many and great. They are more powerful because of the virtues of our country, and the Bible and the history of the natural resources. They are all the greater also because we have become accustomed to rely in our wealth, forgetting that a man sowing and that man's more part is not a man's, but that Justice, Liberty and truth alone exalt a nation.

With ideal weather the last few days seeding of cereals in the Carbon district, is rapidly being completed and it will not be long before entire seeding operations are complete.

Most of the farmers have completed seed sowing and here and there have also finished seeding cereals.

Good moisture conditions have prevailed this spring, and although later than years in being needed, many fields are quite green now and with the warm weather at hand are growing rapidly.

Seeding throughout other parts of Alberta does not seem to be as far advanced as in this district and it is estimated that there is still thirty per cent of what seedling to be done in the province. Most of this, however, is in the northern part of Alberta, where late spring and moisture conditions have kept the farmers off the land.

There has been very little reduction, if any, in the acreage seeded to wheat in the district in 1935. In fact, the spring has resulted, there is no need for the farmer to worry about acreage. He should be satisfied at the present time, as most fields, at the present time, are most ideal.

Alberta has been a great success in the past through such a few years. Things are moving at a tremendous pace in the various departments of our national life. This is more manifest in the old land than here. The unprecedented situation in the international world. The movements of ministers of the Crown to Germany, France, Italy and elsewhere. The direction given to international events in progress. This decade largely with the economic movement. At the beginning of the Victorian era, the industrial revolution came in. It has run its course. Now as a sequence the economic revolution has been born. The change is taking place now. It is a change from a service economy to a service change. The loss on every hand is enormous. The thing of infinite importance to our nation at the present time is that a right direction should be given the movement. That must be toward a return to the economic life of the country. That is the transition through which we are passing is one that must proceed, and will proceed no matter what government is in power. His final term will no doubt be very different from that of the most discerning prophet of our age anticipate. There is no doubt that the key note of the age we are leaving was profit. In view of the fact that many of our young men and women are becoming discover men, and are throwing up their hands and saying: "What's the use?" The answer to that is that God has given us this country as it has given no other country to any other people in view of the fact that He has called us to be a servant nation in the affairs of the world, and thus a blessing upon our nation being called more and more into that ordained citizenship, and in view of the fact that God has made us infinitely greater, better, and nobler than any other people, and that we speak to you on our God given call to citizenship.

If we have real faith in God there is no cause for discouragement for man or woman at the present time. The greatest and the best are still ahead. Prepare yourselves to be a worthy part in the days that lie before. The people that best our nation life are many and great. They are more powerful because of the virtues of our country, and the Bible and the history of the natural resources. They are all the greater also because we have become accustomed to rely in our wealth, forgetting that a man sowing and that man's more part is not a man's, but that Justice, Liberty and truth alone exalt a nation.

CERTIFICATES AND PRIZES FOR MUSIC PUPILS

At the annual report by the piano pupils of Mrs. Geo. Wilson, L.T.C.M., held recently in Carbon, certificates and prizes were presented as follows:

1934 Toronto Conservatory of Music Examination Certificate were presented to: Betty McQuinn, Elaine Torrance, Marion Torrance, Jackie Appender, Arnold Oshman, LeMay Oshman, Edith Oshman, Irene Nash, Ella Halstead, Alice LaCombe, Alice Reed, Betty Wilson, Marcella Oshman.

Special prizes were awarded by Mrs. Wilson to Ethel Carter, Jackie Appender and Marion Torrance for highest marks obtained.

Tennis Juniors Trim Trochu

The Juniors of the Carbon Lawn Tennis Club received a visit from the Trochu Juniors on May 19th, in an interesting match won 5-0 by Trochu by five events to three.

The following are the results and scores:

- Boys' Singles**
C. Ritz, Trochu, defeated P. Poxon, Carbon, 6-4, 6-2, 6-1. M. Malton, Carbon, defeated L. Ritz, Trochu, 6-4, 6-2, 6-1. N. Danforth, Trochu, defeated R. Ramsey, Carbon, 2-6, 6-1, 6-2.
 - Boys' Doubles**
P. Poxon and M. Malton, Carbon, defeated C. Ritz and W. Ritz, Trochu, 6-2, 6-5, 6-2. R. Ramsey and R. LeMay, Carbon, defeated L. Sipp and N. Danforth, Carbon, 6-4, 6-2, 6-2.
 - Girls' Singles**
Miss A. LeMay, Trochu, defeated Miss H. Meterson, Trochu, 6-2, 6-1.
 - Girls' Doubles**
Miss H. Meterson and K. Sipp, Trochu, defeated M. LeMay and R. McQuinn, Carbon, 6-4, 6-4, 6-4.
 - Mixed Doubles**
M. Malton and Miss M. McQuinn, Carbon, defeated W. Ritz and M. Sipp, Trochu, 6-2, 6-2.
- The return match will be played at Trochu on May 26th.

G. H. NASH'S STORE ROBBED

Petty thieves broke into C. H. Nash's store sometime Wednesday night, gaining entrance by smashing plate glass window on the front door and opening the glass back from the inside.

A small quantity of cigarettes and chocolate bars were taken along with about \$7 in cash from the register.

WHEAT ACREAGE 10 PER CENT CUT IN WEST

WINNIPEG—A 19 per cent reduction in wheat acreage, the best acreage conditions in years and a cooling season 19 to 20 days later than usual was shown Monday in the first Winnipeg survey. The survey report of 32,000 acres of wheat in the spring, and the report, pointing to a depth of 18 to 20 inches, enough for immediate planting.

An average reduction of 10 per cent of wheat acreage in the district was estimated, chiefly in the district of northern Saskatchewan, north-central Alberta. It was estimated the acreage to be about 2,200,000 to 2,300,000 acres.

LAST MAY, DROUGHT, THIS MAY, DELUGE

CHICAGO—Last May the drought wouldn't end, this year the rain won't stop.

Farmers over the midwestern United States are beginning to complain about the deluge.

Already near Houston, Tex., the prolonged May showers have forced the farmers to wait to make up for last time. Tractors equipped with headlights chug night after night to plant the new corn crop. Farmers are not working and not to work and are unable to endeavor to transform and mold the life of the individual. All forms of effort seem to be unavailing. The drought that never to be a foot but on the body pillow might be removed. Then we must seek to find a way to live with it.

Said four-year-old Betty—"We've got a new little brother up in our house."

"I guess so," answered, "He's got his things off."

"Heaven," she answered, "He's got his things off."

Helps Building Industry

Chemistry Comes To Aid With Many New Materials

Even eggs and milk may enter the making of new construction materials in a building boom predicted by famous chemists at the opening session of the American Chemical Society's tercentenary celebration in New York.

A boom in the building industry inspired by discoveries of chemists, many of them made during the depression, was forecast by Prof. James R. Whitlow of Ohio State University.

Artificial stones are already made in every color and with any degree of hardness a customer desires. Wood rot and metal rust are both stopped by numerous new protectives. Bricks that partake of the lightness of thistleseed and other light weight construction materials promise much higher, yet even safer skyscrapers.

Queen Mary's Tea Chest

Gift From Ceylon To Be Exhibited In Toronto

Visitors to the Ceylon exhibit at the forthcoming Canadian National Exhibition in Toronto will have an opportunity to see the beautiful chest presented to Her Majesty at Christchurch by the Empire Tea Growers. The chest is made of rare and lovely woods—rosewood from India, inlaid with satinwood and ebony from Ceylon and purchased from British Guiana. The woods being left in their natural state at the express wish of Her Majesty. The inlay on the lid has the Queen's own royal cypher. When presented to Queen Mary the chest contained fifteen pounds of the finest grown Empire tea, valued at over \$3 per pound.

NOT A RHEUMATIC PAIN FOR 4 YEARS

70-Year-Old Man Praises

Kruschen

A man who once suffered severely from rheumatism writes:

"I am now 70 years of age. I suffered with rheumatism, and at one time was laid up for about nine weeks. About five years ago I was advised to try Kruschen. I did so, and have continued using them ever since. Kruschen did the trick, as I have not had a rheumatic pain for over four years. I am work—thanks to Kruschen."—A. S.

Kruschen dissolves away those needle-pointed crystals of uric acid which are the cause of all rheumatic troubles. It will also flush these dissolved crystals clean out of the system. Then if you keep up the "little daily dose," excess uric acid will never form again.

Of Canadian Make

Domestic Supplies Medium-Quality Gauntlets For English Motorists

Motorist and motor cyclists in the United Kingdom wear leather gauntlets when driving during the winter. But during the summer months the motor cyclist uses them when travelling at night. A large proportion of the medium-quality motor cyclist's gauntlets are of Canadian make, according to the Industrial Department of the Canadian National Railways. While the British are experts when it comes to sheepskin gloves, strange as it may seem, in the case of those made of heavier leathers, such as cow, mule and horse hide, they have to be imported.

A Dangerous Procedure

Doctor Warns Against Forced Giving Of Cold Liver Oil

Dr. Irving Graef, pathologist of Bellevue hospital, New York, told the American Association of Pathologists and Bacteriologists, mineral oils and animal fats drawn into the lungs of infants and children have proved fatal in six cases of pneumonia. Cold liver oil, described as good when taken into the stomach for some building, Dr. Graef said, was deadly when it entered the lungs. He cited one case to show the oil had entered the lungs through forceful and reluctant child to swallow it by holding his nose.

Umbrella Works Well

Because one cannot carry an umbrella when wearing a uniform and maintain one's dignity, the rain shields have gone out of style in Germany. As a result 100,000 people in the umbrella industry have been thrown out of work and manufacturers are seeking ways and means to bring the umbrella into its own again.

Another Surgical Find

Human Suffering Reduced By Operation On Pain Nerves

Surgery on the nerves of pain offers hope of reducing human suffering.

The operations possible were reviewed by Francis C. Grant, M.D., of Philadelphia, at the meeting of the American College of Physicians.

Some of the fibres form the bundles of nerves, just as separate fibres form threads, carrying the sensation of pain; others give the movement orders.

By cutting the pain fibres in the spinal cord pain can be stopped in the legs and up into the pelvis. Touch and position nerve fibres remain unimpaired and the movements of the legs are not interfered with.

Another operation severs the roots of some of the nerves, but is seldom used because, while it relieves pain, it interferes with movement.

Seeking to block the "pain pathway" through the nervous system is the latest method of attack. This has been done successfully for some pox malignancies and for angina pectoris.

Powerful Searchlight

Throws Beams Which Will Illuminate Objects Within Fifty Miles

Residents of Pittsburgh, Pa., are in wonderment at a powerful shaft of light that penetrated the darkness for many miles. It originated from that engine room of the navy, the world's most powerful mobile searchlight undergoing a test prior to its delivery to the United States army.

The searchlight is a 60-inch giant and throws a beam of 750,000 candle power. Engineers who built it say the light's concentrated, narrow beam will illuminate any object within 50 miles. The "detecting" equipment is entirely mobile, carried aboard trucks.

An aeroplane with a 100-foot wing spread flying 20,000 feet high and 250 miles an hour—would be quite difficult.

The searchlight is designed to do it, and expose the plane to the fire of anti-aircraft artillery.

Upholding The British

New York Paper Sticks To Statement About War Debt

The New York Daily News says: "We've received a number of unflattering letters in reply to our editorial in which we said England is right in refusing to pay any more of its war debts to us for the time being. These letters advise us that we are in the pay of the Redcoats, traitors to Uncle Sam, trying to lick the King's boots, etc."

Let's come down to brass tacks. How about our debts to our own people (and to any foreigners who happened to buy our bonds)? We aren't paying them, are we? President Roosevelt has taken 40 cents out of every dollar, and he won't pay a dollar of those debts in gold. Furthermore, our Supreme Court sustained that default. So if John Bull is a nasty old repudiator, what is Uncle Sam?

The fact is the war cost so much that every country which took part in it, including ourselves, has had to repudiate a large part of its war debts.

Camels For Russian Farms

Farmers of Soviet Russia are to be supplied 257 camels this year to be used in the establishment of new camel farms. The farm in the Yelich district of Western Kazakhstan now has 2,335 ships of the desert, the herd increasing 24 per cent in 1934.

How Spare Pennies Grow

British Post Office Savings Increased By \$25,000,000 Last Year

More pennies and shillings than ever are being put into Post Office Savings Banks in Britain.

The head office has announced that deposits of small savers have reached the record figure of 455,000,000. They increased by 128,000,000 during last year alone. Over the last two years they have increased by 150,000,000.

These large sums are made up entirely of the occasional spare cent of villagers and townsmen in Britain. One of the methods of saving is to buy special stamps and stick them in a savings book. When a certain number have been collected the book is given in to the local post office and the amount represented is credited to the saver's account.

Last year 250,000 "home safes" were issued. These are special post office home money boxes which can be taken to the local post office when the owner desires and the amount in them credited to his account.

The Post Office Savings Bank now has more than 8,500,000 depositors. And that number is increasing by 12 per cent each year.

Are Becoming Important

Aviation Is Creating Interest In Islands Of Ocean

Soon every little island in the ocean is going to find itself important and it is certain that, with aviation developing as it is, places which in the past have not even been spots on the map will become centres of interest. Here, for instance, is the case of the Wake Islands, away out in the Pacific Ocean. There are three small islets, with a total area of not more than 2,600 acres, yet they are to be a point of call on the proposed U.S.-China air route, plans for which are now well under way with Pan-American Airways and the United States Government co-operating.

If on rising in the morning you hand in your pyjamas before the open window and slap your chest with both hands for several minutes you will notice a crowd slowly gathering in the street below.

Clubs for railroad workers are being organized in Russia.

Bible Distribution

Colporters Deliver An Average Of 30,000 Bibles A Month

By dog team in the far north and on foot through every part of Canada, Colporters distribute an average of 30,000 Bibles a month, according to the annual report of the Canadian branch of the British and Foreign Bible Society.

An increased demand for Bibles in English is reported from foreign language groups of workers in Western Canada.

After all expenses were met, \$39,000 was sent to London for worldwide work compared with \$23,000 in 1933. Bibles distributed showed an increase of 22,000.

Planning

In these days much is heard of the art of planning and the dire necessity for scientific, constructive planning in business, industry, social services, in fact in all the organization of our modern life and its varied interests and activities. Indeed, if a person was prepared to unthinkingly accept the advice so freely tendered in many quarters, only one conclusion would be reached, namely, that mankind in mass could, if it would, definitely plan and order its way of life, and thereby and authoritatively scale and draw a plan that would work with the simplicity and accuracy of the multiplication table.

But life is not like that; too many contrary forces enter into the scheme of things and life, too many factors, influences and natural laws which are beyond human control to permit of any artificial planning that will prove workable and fool proof. As the poet Burns so well expressed it:

The best laid schemes o' mice an' men
Gang aft a-gley,
An' lea'e us naught but grief and pain,
For promised joys.

Two years ago President Roosevelt's "brain trust" decided that the whole economic life of the United States could be planned and charted in advance, that it could scientifically plan and control the production of that country so as to overcome and prevent what was alleged to be the evils of over-production. It set out to do so, but instead of facing the primary cause of the alleged over-production, it adopted and acted upon the easy formula that all that was necessary was to compel by law a reduction in the volume of production.

So what farmers were bonused, not to grow wheat, but to stop growing it; cotton planters were bonused to stop growing cotton; farmers were paid to quit raising hogs, and so on and so forth, and the consuming masses of the people were taxed in order to raise the funds wherewith to pay these bonuses on destruction. Then Nature stepped in, withheld its usual bounty, sent supply of rain, sent excessive heat and blistering winds and swirling dust storms, and in a brief space of time reduced production over man's mistaken efforts, and to a far greater extent, until within a few months a shortage of supplies faced the nation instead of an over-production, which over-production had actually resulted from a previous form of artificial planning in the shape of tariffs and other trade restrictions.

Following the Great War, the statesmen of the world assembled in Paris to draft a treaty of peace and to plan the future of Europe and the world. They labored for months, created elaborate international machinery to direct and control world affairs, rearranged the boundaries of countries, and gave birth to new nations. On paper their plans looked good; they were hailed as a great advance in the cause of world peace and international goodwill and co-operation.

But in the years that have followed all the passions, prejudices, suspicions, racial and religious animosities and vagaries of human nature have continued to hold sway over millions of mankind. Much of the planning has proved an abject failure, some of it has been thrown into the discard, and what remains is in danger of destruction through another world conflict. Thus has it been amply demonstrated that man cannot direct and control the immutable laws of Nature, nor can he forecast them in any scheme of planned economy he may devise, neither can he plan for his deliverer and savior, for he may die, draft plans and charts which will work despite all the selfishness, the ambitions, the ignorances, passions and prejudices of man.

This being so, the nations are now being told by the planners that mankind in the mass can no longer be trusted; that democratic forms of government are a failure; that instead of the people creating and controlling their governments, forms of government must be set up which, controlled and directed by a few, will superintend their will upon the people, control and order the people, instead of the people controlling the governing bodies.

Such a plan may be inaugurated; it may work for a time, but not for long. It can never possess any degree of permanence, because man was created a free being with a mind, a will, a soul of his own, and in the final analysis he will, with God and his own nature intended that he must work out his own salvation. No other power, and least of all a government, can do it for him.

Nevertheless, there must be planning and there must be control and direction. Everything cannot be left haphazard, otherwise chaos and disorder would ensue. But it must be recognized that there are limitations in all planning, and that imposed by Nature's laws and by human frailties cannot safely be ignored. Nor can the inherent desire and determination of every man to be free, to live his life as he deems fit, and to follow his own will be denied. It always has, it always will. But liberty does not mean license, and in demanding liberty for himself each man must recognize the rights of others and accord liberty to others.

Therefore, in all our planning the improvement and advancement of the individual must provide important and advancement in any system that may prevail. It is tempting the cart before the horse to try and improve the system first and thereby improve man; but this is the other way round. God does not remove evil and temptation in the world, but we are taught to pray that we be not led into temptation.

The proper study of mankind is man, and the proper, only permanent, planning is by individual man, namely, that he so order his life and his activities, so control his ambitions and his passions, as to come within the plan laid down in the Golden Rule—Do unto others as ye would that they should do unto you.

perfect condition at the house of Mrs.
George Wilson—Apply to Mrs. Alex
Pettit, Rr. Carbon.

Chas. Graham and family moved to
the house vacated by C. Moorhouse on
Wednesday.

Mrs. C. Prinsen spent the first of
the week visiting Mr. and Mrs. E. Nelson
at Carleton.

Miss L. Riley was a Calgary visitor
Monday, returning Tuesday.

Mr. Thomas and Jas. Ransay returned
from Wynne on Friday.

Friday, 24th of May is Victoria Day
and a legal holiday. All places of
business will be closed.

A crew is working on the road west
of town, putting in a traverse across the
creek by W. Gordon's farm.

W. GORDON'S ADDRESS

(Continued from front page)
fruct, educate, mould and uphold
Socialists and anarchists often de-
nounce the school and the church
and preach a gospel of destruction.
If you would have a reversion of the
anarchism I have experienced, and
the tyranny Russia is still experiencing,
countenance and encourage such
revolutionaries. We need the school
and we need the church. Apart from
the transforming power of the Gospel
of Jesus Christ, a strong and worthy
character is impossible.
After all the foundation of true pa-

W. Poxon spent Friday in Calgary.

Mr. and Mrs. A. F. McKibbin, Mrs.
Torrance and Mrs. Jas. Ransay were
visitors to Calgary on Wednesday, re-
turning today.

CHRIST CHURCH, CARBON

Services will be held as follows:
1st and 3rd Sundays in month, 11 a.m.
2nd and 4th Sundays in month, 7:30 p.m.
1st Sunday in month by arrangement
REV. R. EVANS, in charge

I. Guttman was a visitor to Calgary
on Sunday, returning on the bus
Monday morning.

Sharp's Circuit shows, who of late
have been holding "banquet" nights
on certain show nights on which the
names of persons attending were
drawn, the lucky one receiving a cash
prize, have had notice from the al-
torney-general's office to stop this
practice.

trition, and true citizenship rests
largely with our homes. The home
ought to lead the way in laying the
foundation for true character building.
No other institution has so much to
do with the formation of character.
No other influence is so lasting.

The responsibility for all legislation
lies at the door of the citizen. It is
the citizen's duty to have an intelli-
gent grasp of conditions, and as far
as possible, laws; to seek their proper
enforcement; to promote all legisla-
tion necessary for the prevention
of crime and promotion of justice.
Then we cannot make new laws
out of parliament is no reason why
we should not clear away the rubbish.

Brothers, we must lay the founda-
tions of our country's moral, material
and spiritual welfare in righteousness,
truth, purity and sobriety. The govern-
ment, whether civic, provincial or
national that does not hold these stan-
dards aloft is fitting to its downfall.
All the flags waving, and all the pa-
triotic speech making without these
are merely empty bubbles. Men, ho-
nour and fathers, the use of the fran-
chise is yours; the power of good
and evil is yours; the power to
right the wrongs of our land is yours;
and the responsibility for making
good citizens of your children, and
of the children that come to us from afar

is yours. You cannot transfer your
responsibility. Indifference to civic
or national affairs will bring its own
punishment. Selling your birthright
like Ben is a common practice today.
A practice that cannot be too strongly
condemned. The culprit cannot be
too plainly branded with the mark of
the beast. Electoral purity cannot
come from men of that calibre. It
must come from the true patriots of
our land. From the men who fear
God and honor the King. From men
whose ideal is the lamb of God, and
who are not ashamed of His Cross.
Fellow Christians, God does not give
any right to a church that does not
serve its generation. The church that
does not face the problems of the day
and do its utmost to solve them must
fade and die. Political parties, trusts
and combines are appealing as never
before to man's lower nature. It is
for the church to appeal to the higher.
These parties (and so to parties)
that degrade. The church must ad-
dress the intellect, the moral nature
and the soul. If we fail to do so
who drink and gamble; who disregard
purity, truth and righteousness; and
the institutions that have made our
nation great, then we place ourselves
on their level. We publicly announce
their immorality, and we prove our-
selves unchristian.

(Continued Next Week)

NOTICE TO CREDITORS AND CLAIMANTS

In the Estate of John Richard-
son Hempstead, formerly of Car-
bon, Alberta.

NOTICE is hereby given that all
persons having claims on the estate
of John Richardson Hempstead who
died in England on the 30th day of
May, A.D. 1925, are required to file
with the undersigned by the 1st day
of July, 1933, a full statement duly
verified of their claims and of any
security held by them, and that after
that date the Executors of the Will
of Mary Hempstead will distribute the
share of the said deceased under the
said Will among the parties entitled
thereto, having regard only to the
claims of which notice has been so
filed or brought to their knowledge.
DATED this 15th day of May, A.D.
1933.

JOSEPH J. GREENAN,
Solicitor for the Executors,
Carbon, Alberta.

THE SIGN OF A FAIR DEAL

The Three-Star Imperial oval sign marks a place where
you can buy with confidence; where you can be sure of
good value and full measure.

It is the symbol of an organization that has steadily im-
proved the quality and consistently reduced the price of
petroleum and petroleum products—for gasoline prices
today are lower than ever before.

The Three-Star Imperial oval sign stands for a fair deal
to all; to you, the consumer, and to the labor engaged in
making and marketing Imperial products. The thousands
of Imperial Oil workers are well treated. Five thousand of
them are part owners of the Company. They are paid good
wages. They have sickness and death benefits and old age
pensions which mean that in affliction or old age they and
their families do not become dependent on funds which
must be raised by taxation.

Because they are fairly treated, Imperial Oil employees
work loyally, enthusiastically and enterprisingly. That is
why, through the years, it has been possible steadily to im-
prove the quality and consistently to lower the price of
Imperial gasoline and oils.
